\* Worker Sentiment is based on anonymous worker survey conducted as part of the assessment. It provides a snapshot of worker's feedback regarding assessed dimensions with the purpose to help various levels of stakeholders effectively identify high priority improvement areas and key topics for additional support. If it is shown as N/A, it means a worker sentiment survey was not conducted.

\*\* EIQ Supply Chain Country Risk Score provides insight into the inherent risk in the supply chain. It is based on risks associated with countries / provinces based on public domain data and aggregated ELEVATE audit data generated from 30,000+ days per annum on site in supply chains in over 100+ countries and regions.

\*\*\*Benchmarking data is based on aggregated standard ERSA audits conducted globally. This does not include data from critical issue assessments, equivalence or SAQ services.
